

MarketPlace

What is it?

- Online platform to service your client's non-vending needs
- Catering / Dairy / Fruit etc
- Works for external vendors, commissary kitchens and your own kitchens
- Guests have access to your existing vendors
- Opportunity for wide range of brands
- Opportunity for revenue generation

How does it work?

Guest accesses list of vendors; browses menus, builds order...then checks out with ease.

What happens next?

Guest receives confirmation email - complete clarity on all order details. Card details saved securely for simple repeat ordering. Vendor alerted.

Back Office Access

You have access, along with vendor, to digital calendars, a range of production notes and order management tools.

Repeat Orders

Perfect for recurring dairy, fruit, tea/coffee etc orders.

Clients empowered with their own profile so they can view, edit, and repeat their orders within pre-set cut off times.

➔ Excellent opportunity for additional revenue streams while providing clients with a confident ordering experience

➔ Eradicate errors from manual processes

➔ Ease of client billing
